

DESCRIPTION

Our Mermaid speaker is about to become a must-have. This waterproof speaker and its 8 light modes are destined to be the life and soul of all your parties and your perfect complement for showers and baths. Nothing will ever be the same again!

Dive in!

Listening to music in the pool or in the bathtub is now possible. This waterproof speaker connects to your phone to play the music you want. In addition, you can manage your music from the speaker itself, all without leaving the water!

8 light modes

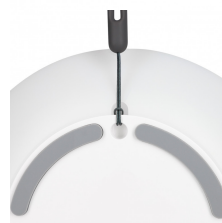

Our Mermaid speaker is all about partying. It includes 8 different light modes so you can adapt it to every situation. Want something chill? Choose the static light modes. Want to spice up your party? Try the dynamic light modes.

Hello?

Answering calls while you're in the pool, bathtub or shower is no longer a drama. Thanks to Mermaid, you can manage all incoming calls with a single touch from wherever you are.

Hang it up!

The Mermaid speaker adapts to everything. Not only can you leave it floating in the pool or bathtub, but you can also hang it up thanks to its special slot. To do so, you'll need an extra pendant (not included in the product). There's no excuse for not listening to your favourite music anywhere!
