

## DESCRIPTION

The Ksix Retro 2 wireless headphones are perfect for those looking for premium technology along with an ergonomic and comfortable design. They incorporate a built-in microphone so you can maintain phone calls. Thanks to its large battery capacity you can listen to music from your cell phone or your favorite radio for 8 hours without interruption.

### Environmental Noise Cancelling

The Ksix Retro 2 incorporates ENC noise cancellation technology. This technology uses microphones to detect external sounds and creates an opposing sound wave to cancel them out, reducing background noise during phone calls. This provides a higher quality of audio picked up by the microphone, making sure the person you are talking to does not hear unwanted sounds.

### 8 hours of non-stop music

With these wireless headphones you can listen to music for 8 hours without charging them. They charge in just 1,5 hours through its Micro-USB port (50 cm USB-A to Micro-USB cable included). In addition, it includes a 3,5 mm Jack cable so you can continue using them when they run out of battery.

### Modes of music playing

Besides being able to listen to music from your phone thanks to their Bluetooth 5.3, you can listen to the radio thanks to its FM radio function. In addition, the headphones incorporate a slot so you can insert a micro SD card with all your favorite songs.

### Pure versatility

These wireless headphones allow you to control all its functions with the built-in buttons. You can take calls thanks to its built-in microphone, as well as raise or lower the volume and change playing mode with a simple click without using your phone. In addition, its LED indicator informs at all times of the connection and charging status.

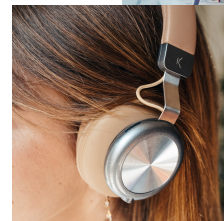

### A design that does not go unnoticed

The Retro 2 are specifically designed to be comfortable and resistant. They are made from ABS and aluminum, the perfect combination of ergonomics and durability. With a light weight of only 200 grams, you won't even notice you're wearing them. In addition, they have an IPX4 protection rating, which makes them resistant to water.

## TECHNICAL SPECIFICATIONS.

Color	<b>Brown</b>
Connectivity	<b>Bluetooth 5.3</b>

Material	Aluminum + ABS
Technology	ENC - Environmental Noise Cancelling
Volume control	Yes
Operating range	10 m
Autonomy	Up to 8 hours
Battery capacity	400 mAh
Charging time	1.5 hours
