Charging Cable Lightning to USB-A, Made For iPhone, 1 meter, Compatible with fast charging, Blue

DESCRIPTION

Our We Love Colors Lightning-USB Type A cable is a 2.4A USB cable that connects your iPhone, iPad or iPod with Lightning MFi connector to the USB-A port of your computer, TV, power strip, USB power adapter... to charge your device in the most convenient way possible.

Made For iPhone

This cable model is Made for iPhone (MFi) certified. MFi certified products have passed numerous tests designed by Apple. MFi certified cables are a safe and stable charging solution for your devices. Enjoy optimal data transfer, syncing and charging for your iPhone, iPad or iPod.

Compatible with fast charging

Its 2.4A capacity makes it the perfect charging cable to support fast charging. A cable that ensures fast and optimal data transmission depending on the charging adapter you are using.

Maximum comfort and safety

Its metre length makes it the ideal cable both for connecting devices at home and for taking the cable with you wherever you go. Its carefully studied design with its secure, reinforced fit will guarantee an ultra-secure connection every time you plug it in and a long life for your cable. It also features a silicone finish that makes it soft, pleasant and comfortable to use.

Pure versatility

Its USB-A port makes it a universal cable that can be connected to almost any electronic device. Whether it's a computer, TV, smart power strip or power adapter, your cable will adapt to any power source in the most versatile way possible.

Colorful charging!

If you're going to choose a cable, choose one that won't go unnoticed like this model available in pink, green and blue. A stylish cable that will add a lot more life to the simple task of charging your device.

Committed packaging

With this cable we have said goodbye to unnecessary plastic packaging, creating a packaging made only of cardboard. A way to contribute to the planet by leaving aside the most harmful materials for the environment.
