

DESCRIPTION

Bring color into your life thanks to our We Love Colors cable model. This blue Lightning to USB-C cable supports a maximum power of 65 W, thus enabling ultra-fast charging. It is Made for iPhone approved, which means that it meets Apple's performance standards and has been designed to specifically connect to Apple products such as iPhone, iPad or MacBook. In addition, you can transfer your files between devices at a high speed thanks to its 480 Mbps data transfer.

Ultra fast charge compatible

It supports a maximum power of 65 W, making it the perfect charging cable to support both fast charge and ultra fast charge compatible devices. A cable that provides fast and optimal data transmission according to the charging adapter you are using.

Made For iPhone

This cable model is Made for iPhone (MFi) certified. MFi certified products have passed numerous tests designed by Apple. MFi certified cables are a safe and reliable charging solution for your devices. Enjoy data transfer, synchronization and optimal charging for your iPhone, iPad or iPod.

Maximum comfort and safety

Its length of 1 meter makes it the ideal cable both to connect devices at home and to carry it with you anywhere you go. Its thoughtful design with a secure and reinforced fit will guarantee an ultra-secure connection every time you use it and also provides a longer lifespan. In addition, it offers a silicone finish that makes it soft, pleasant and comfortable when using it.

For multiple devices

This cable is compatible with Lightning devices such as iPhone 5 and later versions, iPad and iPod, as well as USB-C devices, including chargers, portable chargers, car chargers, Macbook Pro versions, among many others. In addition, it is a data synchronization cable which will allow you to transfer files at high speed, since it supports up to 480 Mbps.

Add some color to your charge

If you are going to pick a cable, choose one that won't go unnoticed, like this model available in pink, green and blue. A cable full of style that will give more life to the simple task of charging your device.

Committed packaging

With this cable we have bid farewell to unnecessary plastic packaging, creating a packaging solely made of cardboard. A way to contribute to the planet by leaving aside the most harmful materials for the environment.
