

DESCRIPTION

A small, lightweight and incredibly efficient 20W charger equipped with USB-C port that will accompany you wherever you go. Its wide compatibility will allow you to charge your iPhone and other devices at a speed 3 times faster than the classic 5W wall charger. Discover all the benefits of Power Delivery (PD) technology and charge all your devices quickly, safely and efficiently while keeping your battery's health intact.

Charge your iPhone up to 50% in just half an hour

The 20W of power built into this charger will provide you an ultra-fast charge that will fully charge your battery in no time at all. Save waiting time thanks to its charging speed, which is 3 times faster than standard 5W chargers. Get ready to charge 50% of your battery in less than half an hour! (Test carried out with an iPhone 12)

Long life to your battery

The innovative Power Delivery (PD) ultra-fast charging protocol offers countless benefits for you and your smartphone. By intelligently adjusting your phone's input power and voltage, it prevents you from ever overcharging your battery. A technology that detects the end of the charging cycle, thanks to which you'll never overheat your device again and keep your battery as healthy as it was on day one.

Multi-device charger with universal compatibility

Charge all your pocket devices with this USB-C charger. With a single charger you can deliver the highest charging power to your iPhone, iPad and even your AirPods Pro, as well as to a wide range of Samsung, Xiaomi, Huawei, Xperia and Google Pixel models - one fits all!

Compact, lightweight and durable

A charger that fits in any pocket. Thanks to its reduced weight and size, it is the ideal choice for use at home, on the road or in the office. Its flame-retardant casing features high-quality components that ensure maximum safety and wear resistance, and its unique black finish, inspired by the colour of liquorice, gives it a fun and youthful design.

The new USB-C standard: for today and for the future

The great usability and endless possibilities offered by the innovative USB-C standard will be your smartphone's best ally. With a much faster speed than traditional USB-A, you will significantly reduce charging times and benefit from an incredibly efficient, safe and versatile technology.

CE and RoHS certified

The CE and RoHS certifications demonstrate the quality of our products through compliance with applicable European Community regulations and commitment to the 200/95/EC directive on the Restriction of Certain Hazardous Substances in Electrical and Electronic Equipment. A reliable guarantee against overheating, overvoltage and short circuits.

TECHNICAL SPECIFICATIONS.
