

## DESCRIPTION

Charge and sync all your devices with the 1 metre USB-C to USB-C cable from KSIX. With E-Marker chip, compatible with Power Delivery technology and up to 100 W of power, it will allow you to charge your devices at full speed in the most efficient way possible. You will also be able to sync your devices thanks to its data transfer speed of up to 480 Mbps. All this together with a length of 1 metre for maximum comfort and convenience.

### Built-in E-Marker chip

Experience maximum charging efficiency with the KSIX USB-C to USB-C cable, equipped with advanced E-Marker chip technology. This innovative chip not only optimises performance, but also intelligently manages heat, ensuring more efficient and safer charging. Your battery deserves the best, and this cable is designed to extend the lifespan of all your devices.

### Compatible with Power Delivery

The KSIX USB-C to USB-C cable supports Power Delivery charging technology. When connected to a charger that incorporates this advanced technology, your compatible devices will benefit from faster and smarter charging compared to conventional chargers and cables. Thanks to this innovation, your devices will be ready to go in no time at all.

### To charge and sync

Experience ultra-fast charging with the KSIX USB-C to USB-C cable, which delivers an impressive power output of up to 100 W, ensuring you have all your devices ready in the shortest possible time. Plus, with a data transfer speed of up to 480 Mbps, you'll be able to sync your devices and transfer files of all kinds at full speed.

### For multiple devices

Equipped with two USB-C connectors, one at each end, this cable adapts to the current market connectivity standard. With this feature, you will enjoy extended compatibility compared to cables using other types of connectors. From smartphones and tablets to earphones and laptops, this cable allows you to charge a wide range of devices.

## TECHNICAL SPECIFICATIONS.

Color	<b>Black</b>
Material	<b>PVC</b>
