

DESCRIPTION

5 meters LED strip with up to 16 different color possibilities. Perfect for creating environments of all kinds and anywhere. Included remote control to play with the lights and colors.

16 colors

Up to 16 RGB colors to create different environments as you feel like it. Choose from several shades of blue, green, orange, yellow, lilac, red, and more.

Remote control

Change color and intensity easily with the included remote control. In addition, it incorporates different effects such as fade or strobe to further liven up the environment.

5 meters

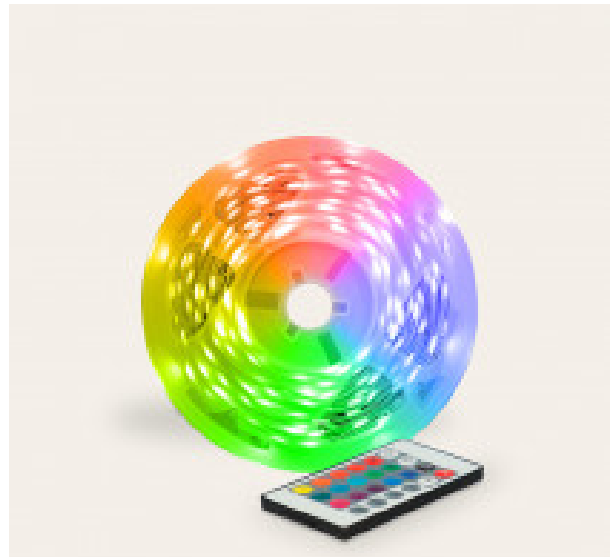

The strip can be extended up to 5 meters long, to decorate furniture, hallways or walls.

IP20

ColorLed has an IP20 Protection Index, making it resistant against dust and other small particles.
