

DESCRIPTION

Special needle for cutting Ksix UV Films with a sharper and thinner design for more precise cutting. Includes needle holder compatible with the Ksix Screen Protector Cutting Machine.

Compatible with UV films

This needle is necessary for cutting UV films. Its sharper and thinner design with a diameter of $1.96\text{mm} \pm 0.01\text{mm}$ makes it the most suitable needle for cutting this type of film thicker than the rest.

Maximum precision

The special KSIX needle for UV films cuts with high precision for 100% reliable results. In addition, it offers maximum durability and a stainless steel blade cutting type that will guarantee the highest quality results.

About the Automatic Cutting Machine

The ideal solution for stores that want to optimize their space and avoid obsolescence or being out of stock at the same time.

Integrated app

With WiFi connection and an integrated App which works with a touch panel. This lets you set the cut according to the device.

Maintenance included

Its extensive database of mobile terminals, gadgets and Tablets is updated daily with the latest market developments. Therefore, brands and models of all different devices will always be available.

Profitable

Each hydrogel film brings a great margin that will quickly make up for the machines cost. In addition, it allows you to save money as you won't need to buy a different protector for each device model.

2-year warranty and technical attention

The Automatic Cutting Machine includes a 2-year warranty as well as personalized advice from our technical and commercial staff, so that you can get the most out of it.
