

## DESCRIPTION

You didn't know you needed it, but you do: our 10-meter colorful LED light strip is a must-have in any room. Regulate and create the most incredible atmospheres with its 20 color modes and 4 music modes, and control them thanks to its remote control and APP. Plus, they can connect to Alexa or Google Home - they have it all!

### APP and remote control

Manage your strip lights the way you want. Thanks to its 24-button remote and app control, controlling the ambient lighting has never been easier. Schedule the lights to turn off and connect them to your Alexa or Google Home device.

### A thousand colors

It doesn't get any more colorful than this. Get up to 16 million different colors thanks to its 20 color modes and find the atmosphere you need at every moment.

### Music mode

The 4 music modes of our light strip are amazing. Adapt the rhythm of your lights to the beat of the music for the most immersive experience.

### 10 meters of light

With this length, how can you not light up everything you want? Its 10 meters of LED lights allow to decorate any environment.
