

DESCRIPTION

Magic goes beyond the screen thanks to our Ksix TV led strips. Choose from 16 RGB colors and 4 dynamic color modes and create the perfect ambiance for watching your favorite shows and movies. Grab some popcorn and settle in!

Smart Life App included

Thanks to the app, you can choose between 16 fixed colors and 30 color adjustable modes. It includes the possibility of setting the power on and off. In addition, lights will follow the rhythm of the music with up to 5 scene modes. Don't stop the beat!

Remote control

If your smartphone is not available, you will be able to turn up and off the lights, change the color, the mode or the intensity thanks to the remote control included. Getting up from the couch or bed to change the ambiance is a thing of the past.

Set them up any way you want

These lights couldn't be more versatile. Not only are they cuttable, but they also include extension cords and connectors so you can adapt them to any TV. In addition, thanks to its adhesive system, they fit perfectly to the surface of your device.
