

DESCRIPTION

Functionality and design are not at odds, and the Xiaomi FED designer fitness dumbbells are the best example. Their award-winning design, marked by curved, careful and minimalist lines, are the work of the prestigious design studio Feier Design Studio. Coupled with their color, they turn these dumbbells into an element that could also be seen as a decorative element.

10 in design

The award-winning design of the Xiaomi FED dumbbells is more than well thought out. Its careful and minimalist lines are the work of the prestigious design studio Feier Design Studio. They are a work of art!

Quality materials

The FED design fitness dumbbells are designed for you to do your strength exercises for a long time. The inner body is made of iron, so the high durability of these dumbbells is guaranteed.

Easy cleaning and maintenance

They are coated with the highest quality TPR silicone, which not only ensures the durability of the dumbbells, but also makes them much easier to clean. In addition, it protects the surfaces from impact and makes them non-marking.

Compact

The compact size of FED's designer dumbbells not only allows them to be easily stored at home, but also makes them a perfect choice for taking on trips or to the gym. Strength exercises go beyond your four walls.

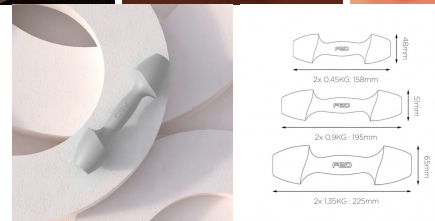

Pure versatility

The limits are in your imagination. Thanks to these dumbbells, you'll be able to work out a wide range of areas without the need for additional equipment. There's no excuse for not getting into the world of fitness.
