

**Ksix wireless microphone for
smartphones, Type C, Plug and play,
Receiver and microphone, up to 10 hours
of use, Black**

DESCRIPTION

Get the sound of real content creators. Thanks to its small size, 10h battery life and ambient noise reduction, our wireless microphone has become the perfect accessory to record videos in any scenario. Connect it to your mobile phone and get the best sound for your TikToks or Reels.

Plug it in, and talk!

Our wireless microphone is super easy to use. Just connect the receiver to your smartphone, put on the microphone, and you're ready to start! No need for additional apps.

Blablabla

Prepare your script and start recording without worrying. Thanks to its 10 hours of battery life, this microphone is perfect for recording takes and more takes to get the perfect video. What's more, it only needs an hour's charge!

Without limits

Thanks to its 20m transmission distance, you don't need to carry your smartphone with you at all times. Shoot video no matter the distance and take the microphone with you at all times.

Wherever you go

Our wireless microphone is incredibly small so you can store it anywhere. And it weighs very little, so you can easily place it anywhere.

Capture what's really important

Eliminate unnecessary background noise with the Speech mic. Thanks to its noise reduction it will make your voice sound better than ever. Whether you're on the underground, at the mall or filming near a motorway, ambient noise will never be a problem for your videos again!
