

DESCRIPTION

Smart automatic air pump, to inflate bicycle tires, motorcycle or even balls. You can preset its tire pressure to whatever you need and test it any time (there are 4 available modes to select from). The maximum inflation pressure is 120psi. It includes standard Switch adapter.

It is charged via USB Type-C port, taking between 3 and 4 hours. It is recommended to use a 5V/2A USB charger, not included.

Its power capacity allows you to inflate and deflate very quickly. In addition to being comfortable, it is safe, so you'll be able to control the temperature during the operation. The air pump surface material is comfortable and has a good gripping experience.

4 kinds of measurement units: PSI, BAR, KPA, and Kg/cm².

Includes LCD digital display with backlight. Easy to read, even at night. Thanks to its included LED light, it can be used in dark places, also being able to operate as an emergency lighting.

It includes 3 adaptors to inflate all kinds of wheels/balls (not car wheels).

Technical information

- Dimensions: 40x40x188 mm
- Weight: 3.6 kg
- Capacity: 1200mAh/7.4V(8.8WH)
- Inflate pressure: 120 PSI (max)
- Flux without load: 20 L/M
- Working temperature: 10°C-60°C/14°F-140°F
- USB output: 5V/2A
- Load Input : 5V/1.5A
- Time: 2.5-4.5 H
- Pressure seal: +/-1PSI
- LED Illumination: 0.5 W
- Intensive Protection: 9A/1S
- Overload Protection: 6A

TECHNICAL SPECIFICATIONS.

Weight	3.6 kg
Dimensions	40 x 40 x 188 mm
Color	Black
Power	5V/1.5A
Ports	USB Type C
