

## DESCRIPTION

Spark wireless earphones are not only very classy, they also have an unbeatable sound quality, based on the latest audio technologies: Dual Mic with noise cancellation and Lossless HD sound, so you won't miss any detail when you're listening to music, a podcast, making a call or watching your favorite series.

### **Metal charging case with innovative design**

The metal charging case of the Spark earphones is all about design and quality. Sturdy and elegant at the same time, it is available in various metallic colors. Its shapes are reminiscent of the distinguished gasoline lighters, although with curved shapes more in tune with current design trends.

### **Dual MIC and Lossless HD technologies**

They enable a flawless sound experience by combining 2 of the latest audio technologies. Lossless HD or anti-loss technology makes it possible to enjoy every nuance and detail in vocals or musical instruments. Dual MIC technology captures ambient noise separately, then suppresses it without creating unnecessary interference.

### **7 hours of music on a single charge**

Allow you to listen to up to 7 hours of music on a single charge. Using the portable charging case provides more than 20 hours of playback.

### **Voice control**

By activating the voice control it is possible to talk to the personal assistant (Google Assistant, Alexa or Siri) without taking the cell phone out of the pocket.

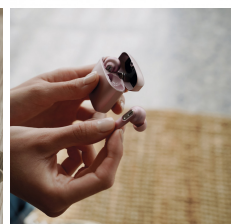

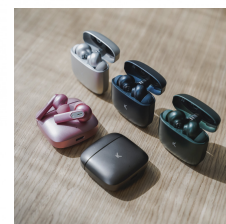

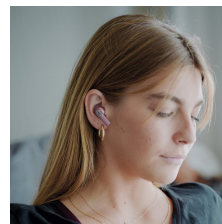

### **Music control and call management**

Thanks to the multifunction touch area, it is possible to control the playlist and answer calls with a single touch.

### **Bluetooth 5.2**

The latest Bluetooth technology and therefore the most efficient. They connect with your cell phone very easily and automatically, once the first pairing is done.

### **Technical characteristics**

- Bluetooth version: V 5.2
- Profiles: HFP/HSP/A2DP/AVRCP
- Weight: 70,45g
- Battery power of the earphones: 45 mAh
- Power charging case battery: 450mAh
- Charging port: USB-C
- Voltage charging case: 4.5-5.5V
- Charging time of earphones: 1,5 h
- Charging time of the case: 45min
- Playback hours: 7h
- Loads with case: 2,5
- Impedance: 115+3db/32Ω
- Sensitivity: -90db
- Operating distance with the cell phone: 10 m
