

DESCRIPTION

The Ksix Saga wireless gaming earphones have been specifically designed to enhance your gaming experience to the fullest. Its low latency provides perfect sound and image synchronization to immerse you even deeper into your favorite video games. They incorporate Bluetooth 5.0 to connect them to all your devices and game consoles without any problem. They offer up to 16 hours of autonomy thanks to the earphones and charging case that will accompany you in the longest games. Enhance your gaming experience thanks to these wireless earphones with LED lighting and bring out your gamer side.

Low latency, better experience

The Saga have been specifically designed to play video games. They offer low latency with minimal response time, allowing you not to miss any detail while playing. As there is no lag between image and sound you will enjoy a much more complete and immersive gaming experience, transporting you directly into the game.

Play with no limits

The Ksix Saga wireless earphones offer a total autonomy of 16 hours. The earphones offer up to 4 hours of uninterrupted sound. In addition, its charging case will give you an extra dose of 12 more hours of autonomy to enjoy the longest games. In just 1-2 hours you will have your case charged and your earphones ready to face any challenge.

For video game consoles and more

The Bluetooth 5.0 connectivity of these earphones will allow you to connect them to any device whether it's a smartphone, a PC or a video game console such as the PS5, Xbox One or Nintendo Switch. In addition, they are compatible with voice assistants such as Siri or Google so that you can control the earphones' functions with your voice.

Easy to control

These wireless earphones have a very intuitive and easy to use touch control. With simple touches you can answer calls, increase the volume, skip songs... Keep full control of the earphones' functions in a quick and easy way and don't let anything slow down your game.

Designed for gamers

Immerse yourself even deeper into the atmosphere of your favorite video games with the earphones' LED lighting. Both the earphones and the charging case have a futuristic black design that looks like something straight out of an adventure video game. Plus, they're super lightweight and feature different types of ear cushions to adapt better to your ears.
