

## DESCRIPTION

The Ksix Fast Charge Wireless Charger for Car combines the comfort of the wireless charging with the usefulness of a car mount for the smartphone. The pack includes everything needed to hold and charge the smartphone. There's no need to add cables or connectors.

### A simple and secure solution

Easy to install and use. Just placing the wireless charging compatible device on the car holder will start the charge, without connecting any cables.

### Elegant and functional

Its minimalist and robust design assures a perfect fix. It includes 2 interchangeable mounts: 1 car air vent mount and 1 car suction pad mount, to place the wireless charger on the car air vent or windshield.

### Perfect adjusting

The holder incorporates a ball-joint for a 360° rotation so that the smartphone can be adjusted to have a perfect view while driving.

### Wireless fast charge for Android and Apple devices

The car charger included incorporates Quick Charge 3.0 technology. This allows the wireless charger to work with a fast transmission power mode of 7.5W or 10W\*, to adapt to all the devices compatible with wireless fast charge (Android and Apple). The fast charge mode allows to charge devices 1,4 times faster than the standard wireless charging mode\*\*. By placing the smartphone on the charger, the battery will start charging without connecting any cables.

The Qi charger will adapt the wireless charge to the standard mode (5W) for those Qi compatible devices which don't allow the fast charging mode.

*\* When charging an iPhone 8 or later, the maximum fast transmission power allowed by these devices is 7.5W. \*\* The fast charging mode works only with Qi fast charging compatible devices, such as iPhone 8 or later and Samsung Galaxy Note 8/S9+/S9.*

### Maximum compatibility

The car pack is compatible with all devices enabled with wireless charging (Qi) and adapts to almost every smartphone available thanks to its 54 x 110 mm aperture range.

Ksix is a brand from Atlantis Internacional. It has the largest collection of accessories designed to make the most of mobile devices.
