

DESCRIPTION

Alarm clock with wireless fast charge

The alarm clock indicates the time and incorporates an alarm, while it allows to charge a mobile phone. It also incorporates a night light, with 3 brightness levels. Is the perfect solution to place on any bedside table without using much space.

Alarm clock

With its sober and minimalist design, this alarm clock with wireless charge and night light will adapt perfectly to any room. Setting the time on the alarm clock is very simple.

Snooze mode

The alarm rings at the time indicated and the snooze mode allows to add 5 extra minutes to sleep, 2 times.

Night light with 3 brightness levels

The alarm clock incorporates a soft light night with 3 different brightness levels.

Wireless fast charge for your Android and Apple devices

This wireless charger has a fast transmission power mode of 7,5W or 10W*, to adapt to all the devices compatible with wireless fast charge (Android and Apple). The fast charge mode allows to charge devices 1.4 times faster than the standard wireless charging mode**.

The Qi charger will adapt the wireless charge to the standard mode (5W) for those Qi compatible devices which don't allow the fast charging mode.

USB type A port

Thanks to its USB type A port, it's also possible to charge devices not enabled with wireless charging.

** If the device is an iPhone 8, iPhone 8 Plus or iPhone x, please note that the maximum fast transmission power allowed by these devices is 7.5W.*

*** The fast charging mode requires a charger with QuickCharge technology 2.0 or higher (not included) and works only with Qi fast charging compatible devices, such as iPhone 8/8 Plus/X and Samsung Galaxy Note 8/S9+/S9/S8/S8 +/S7/S7 Edge/S6 Edge Plus/Note 5.*

Main features

- Alarm clock with fast charge wireless charger and night light
- Hours and minutes LED indicators, with 3 brightness levels
- Alarm easy to set up, with snooze mode
- 2 power transmission modes: a 7,5W or 10W fast charging mode for devices compatible with Qi fast charge and a 5W standard mode, compatible with Android and Apple devices
- USB type A output to charge those devices not enabled with wireless charge
- Compatible with Apple and Android
- Sober and minimalist design, with reduced dimensions, perfect for any bedside table
- Compatible with any Smartphone or mobile device with Qi technology
