

DESCRIPTION

The perfect and fast charging

Speed, comfort and simplicity. Charge your devices only by placing them on the Ksix Wireless Charger. Its as simple as that. You dont have to worry about connecting and disconnecting cables.

Minimalist and elegant design

The wireless charger presents an elegant design that will perfectly adapt to your home or working space. It has an anti-slip rubber finishing to keep your device in the right place during the charging process.

Two wireless charging modes

This wireless charger has a fast transmission power mode of 10W, that allows you to charge compatible devices with the fast charging mode, 1.4 times faster than the standard wireless charging mode*. The charging base will adapt the wireless charge to the standard mode for those Qi compatible devices which dont allow the fast charging mode.

*The fast charging mode requires a charger with QuickCharge technology 2.0 or higher (not included) and works only with Qi fast charging compatible devices, such as Samsung Galaxy Note8 /S9+/S9/ S8 / S8 + / S7 / S7 Edge / S6 Edge Plus / Note 5.

Enjoy watching movies and playing games

Thanks to the charging base design, the device can be placed vertically or horizontally during the charging. This means you can continue watching movies, listening to music, making phone calls or sending messages, without interrupting the charging process.

Safe charging

Once the device is fully charged, the charger will stop working automatically to protect your mobiles battery.

Main features

- Wireless fast charging base
- It incorporates two transmission power modes: a 10W fast charging mode for fast charging compatible devices, and a 5W standard charging mode
- Elegant and minimalist design that adapts perfectly to any space
- It has an anti-slip rubber finishing to keep your device in the right place during the charging process

Technical information

- Input parameters: 5V 2A (standard), 9V 1.8A (fast)
- Output parameters: 5V 1.2A (standard), 9V 1.3A (fast)
- Dimensions: 130 x 72 x 10 mm
- Transmission power: 5W (standard), 10W (fast)
- Charging range: 1-10mm
- USB Micro USB cable included
- Compatible with any Smartphone or device with Qi technology
- Color black

Compatibility

- Fast wireless charging: any device compatible with Qi fast charging, such as Samsung Galaxy Note8 / S9+ / S9 / S8 / S8 + / S7 / S7 Edge / S6 Edge Plus / Note 5.
- Standard wireless charging: any device with Qi technology, or with a Qi compatible battery.

Box content

- Wireless charging base
- USB Micro USB cable
