

DESCRIPTION

Ultrathin rigid case to protect your iPhone 6 from scratches and accidents. The back part is a solid color. The edges have a metallic finishing to match the iPhone materials. The back part allows to see the Apple logo. The buttons are produced in a nice silver finishing. The case fits perfectly with the rounded edges of the new iPhone. It allows an easy access to all connectors. It is available in different colors. The edges bring an extra protection in the front of the iPhone, avoiding any damage to the screen when positioned on a flat surface. Technical specifications: KSIX Hybrid hard case for iPhone 6. Material: Poli-carbonate.
