

DESCRIPTION

Studio Live Remote kit, with a large 12 "ring, includes everything you need to set up a video studio and record the best videos with a Smartphone. Its extendable tripod of up to 160 cm allows more open shots, especially if we want to record standing or full body, which makes it an ideal tool for training or fashion videos. It incorporates a remote control to Start and Pause the recording more comfortably and 2 supports for Smartphone. Ideal for recording from different angles. Remote control Thanks to its remote control, the user can start recording right in front of the camera, without having to move every time they want to start, pause or stop shooting. A detail that makes the job much more effective for youtubers. 12 inch ring Its 12 inches (305 mm in diameter) allows its user to illuminate much larger spaces, which will achieve a more natural image as well as a Pro level result. 2 supports = 2 angles The 12 "ring incorporates 2 supports with a flexible arm for Smartphones, which means that the user can record from 2 different angles at the same time, to later achieve a final result with a cinematic style, when post-producing. 3 light temperatures The LED ring has 3 possible light temperatures that can be adjusted using the built-in control. 10 light intensities The built-in control allows you to choose from 10 possible light intensities, to always achieve the right lighting. Technical information Multiple Brightness Settings Several Warm and Cool Light Options Color Rendering Index: 85 Ra+ Color Temperature Adjustment 6500K-4500K-
