

## DESCRIPTION

Maintain full control over your sport activities thanks to the Contact smartband. Enjoy its multisport mode and its health and daily activity monitoring functions. All this alongside a 0,96-inch TFT display and a 50 mAh battery that can last up to 7 days. Connect it to your smartphone via Bluetooth 4.0 and its HryFine app and keep a more exhaustive control of the smartband functions, receive calls and apps notifications and play your music. Control your daily activity thanks to the Contact smartband. To charge, simply detach the top strap from the body of the wristband and connect its USB-A input to a charger or computer - no need for cables or charging docks. The wristband has a maximum charging time of 2 hours.

### An ever-lasting battery

The battery of the Contact smartband has a capacity of 50 mAh, which can last up to 7 days.\* The smartband has a maximum charging time of 5 hours. To charge it, simply detach the top strap from the wristband body and connect its USB-A input to a charger or a computer.

\*The battery life parameters are not exact, as this depends on your use of the smartband. These figures are approximate and informative.

### Designed for athletes

This smartband features multisport function, which turns it into the perfect ally for those who practice sports or go to the gym. In addition, it will monitor your daily activity, informing you of the amount of calories burned, steps taken, as well as the distance traveled. This smartband will keep with you no matter what you do.

### Monitor your health

With this smartwatch you can keep total control of your health thanks to its heart rate, blood pressure, blood oxygen and sleep monitoring functions. This way you will keep up with your health and not miss anything.

### Stay connected

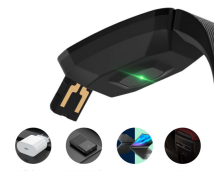

Download the HryFine app and connect your smartphone with this wristband thanks to its Bluetooth 4.0 connectivity. Through the app you will be able to keep a more exhaustive control of your daily activity. In addition, by having it linked to your smartphone, the smartband will allow you to receive call and app notifications and play your music. It is compatible with Android 4.4 and iOS 8.0 and later versions.

### No worries

This smartband features an anti-loss function so that, in the event of losing your smartphone, you can easily locate it. In addition, its 0,96-inch TFT display with IP64 water resistance will always keep it safe from small accidental contact with water.
