

## DESCRIPTION

Connected It connects to your Smartphone thanks to the E-health application that makes it possible to track the progress of your workouts as well as your vital signs. It also includes online fitness sessions. Silent Magnetic Control New generation of silent magnetic control resistance system, operating without noise, with emergency stops and without strong friction. Sports can be done without disturbing neighbors or other residents of the home. Ergonomic Its shape allows for training in an ideal and ergonomic posture. The front-wheel drive structure exerts force to cushion impact and achieves the ideal fitness effect without excessive sweating. Its design encourages keeping the shoulders and back straight as well as contracting the main muscles involved. Cell Phone and Tablet Support 5-point support system, with an L-shaped structure, so that the screen does not shake or damage eyesight. Carwheel Technology Independent suspension technology, quadruple damping, and knee protection. Maximum Cushioning With an independent wheel suspension design. Pedals are connected to the whole machine through belt drive systems to effectively absorb shocks. Exquisite Finish Surface treated with 5 layers of electrostatic spray and an advanced double polishing process. LED Backlight Display It includes a small dial to turn and select the resistance level and Sport Mode. Great Little Details With transport wheels, nice foam for a better grip, double armrests, aluminum bars, and much more. Technical information Dimensions:
