

DESCRIPTION

Waterproof true wireless Noise Cancelling active sport earbuds

Adaptive Noise Cancelling with Smart Ambient

Hear more of what you want and less of what you don't. Adaptive Noise Cancelling adjusts automatically or via the JBL Headphones App to control distractions and stimulate motivation. Smart Ambient helps you feel safe on walks and runs or allows you to chat with a friend while listening to music.

JBL Signature Sound

Reflect Flow Pro earbuds sound as good as they look, utilizing 6.8mm dynamic drivers to deliver incredible JBL Signature Sound whether you're in your office or crushing your workout in the great outdoors.

6 mics for perfect calls and zero noise

Never worry about your voice dropping out when you're outside, in a crowd, or running on a breezy day. Two beamforming mics plus a third for wind suppression ensure you'll stay connected wherever you are with crystal clear sound and no audio failure on either side during calls. With VoiceAware you can control the amount of mic input routed back into your earbuds and choose how much to hear of your own voice.
