

DESCRIPTION

Real-Time Monitoring The Move It sensor captures the movements of your exercise sessions with the FED weights. It can then collect data from workouts and offer you tips for improvement.

Bluetooth Connection It connects to your cell phone with a Bluetooth 4.0 connection.

Proprietary App Its App, Move It, centralizes your training data and includes various exercise tutorials for different muscle groups.

Avoid Injuries By detecting each movement trajectory, it can give you various tips to avoid injury.

Compatible with iOS and Android Its application is easily linked with any device with Android 4.4 and iOS 9.0 or later.
