

DESCRIPTION

Hands-on number play Children arrange physical counters, including dots and digits, to form numbers and complete levels. Add by adding more counters, subtract by removing counters and multiply by connecting counters. Experimenting becomes quick and intuitive. Develop confidence with numbers Children play maths without the pressure of time or the fear of getting an incorrect answer. Osmo's real-time feedback allows children to learn through experimentation in a stress-free environment. Maths gets creative When children have the idea that there are several good ways to solve a problem, maths becomes creative and fun. Designed for all ages. With a counting, addition, concatenation and multiplication mode, there is a challenge for everyone. As children become more confident in one mode, they can move on to the next, allowing them to learn at their own pace. Dive into an ocean of fun The game features an engaging underwater world - discover and collect over 90 beautiful fish of all kinds, from Rainbowfish to Frankenfish! Age: 6-10 years old
