

## DESCRIPTION

The TicWatch Pro 3 Ultra GPS is made to make nature yours. AMOLED display with anti-fingerprint Corning® Gorilla® Glass, Qualcomm® Snapdragon Wear™ 4100, health and fitness monitoring, GPS...this smartwatch has it all to make any adventure an unforgettable experience.

### Unbeatable in power

Wear OS by Google™ operating system, Qualcomm® Snapdragon Wear™ 4100 chip, dual Mobvoi processors...it's impossible to beat the TicWatch Pro 3 Ultra GPS in power with this combo. Never has a smartwatch offered such a fast and fluid user experience.

### Soft on the outside, strong on the inside

The 1.3" Corning® Gorilla® Glass AMOLED screen with backlighting is the most resistant ever. Heat, oxidation, oil, chemicals... nothing can stand up to it! No wonder this watch meets 810G military specifications. Plus, the TicWatch Pro 3 Ultra GPS band is made of premium fluorinated rubber, so it's durable and tough, but also incredibly soft.

### The best features

This smartwatch has everything you need in your day-to-day life: barometer; heart rate, fatigue and blood oxygen monitoring; sleep and stress monitoring; 100 professional training modes; and payment with Google Pay. Plus, its GPS system has access to all five global satellite systems (GPS, GLONASS, Galileo, QZSS and Beidou) so your wrist can guide you wherever you want.
