

DESCRIPTION

Protect the Huawei P20 without giving up its original design. The Magnetic Case is designed to enhance the natural elegance of the Huawei P20, while providing an excellent protection for its front and back. Is the perfect solution to protect the mobile phone without hiding its original design.

..High resistance to bumps and scratches. The Magnetic Case includes a bumper made of aluminum alloy, a lightweight and resistant material, and a 9H tempered glass back cover. Thanks to this combination, it assures an excellent protection of the back, edges and corners of the smartphone. .Also, its corners incorporate interior silicone cushions to absorb any accidental impact.

..Very easy to install. The mobile phone must be placed in the back cover, and the back and front cover must be joined together. The 8 magnetic points, highly powerful, will keep the case together safely, without the need of using screws...Main features. Elegant, lightweight and resistant design.
