

DESCRIPTION

This line tracker sensor is specially designed for the Mibo robot. It is easily added to the robot thanks to the included expansion interface. It incorporates double infrared and is capable of following black lines and circles, and detecting edges autonomously.

Technical specifications

- Compatible with Ebotics Mibo robot
- Power: 3V-5V DC
- Effective distance: 2 12 mm
- Dimensions: 34,15 x 27,20 mm
- Weight: 4,7 g

TECHNICAL SPECIFICATIONS.

Compatibility	Compatible with EBOTICS Mibo robot
Dimensions	34,15 x 27,20 mm
Functionality	It is able to follow black lines and circles, and detect edges autonomously.
Voltage	3V-5V
