Rigid Case for iPhone 14 Pro, Magnetic Ring, MagSafe Wireless Charging Compatible, Rugged, Transparent, Packaging Free

DESCRIPTION

The transparent cases with flexible TPU material on the edges and rigid polycarbonate material on the back are compatible with the MagCharge magnetic charger and Apple's MagSafe technology. Its magnetic ring provides total comfort and a full grip for incredibly fast charging for your iPhone 14 Pro.

Compatible with Apple MagSafe technology

If you're looking for a complete and convenient experience, this is the case for you. A case compatible with Apple's MagSafe technology, which charges the iPhone 12, iPhone 13 and later.

To complete our MagCharge range, we offer a type of magnetic and wireless charger that is specific to this technology: the MagCharge charger. Its perfectly aligned magnets allow the best type of charging for your iPhone.

Charge your iPhone in the fastest way and in the shortest possible time. Just place your case on our MagCharge magnetic charger and you're ready to go. When you least expect it, your iPhone will be fully charged and ready to accompany you in your everyday life.

Bulletproof

Thanks to the highly resistant TPU material on the edges, you won't have to worry about the inevitable damage caused by daily contact. We care about the most sensitive areas of your smartphone and protect them from any impact.

Unrivalled rigidity

Its completely transparent polycarbonate back will show off your phone for all to see, so you can show off your smartphone without fear of dropping it! You'll also appreciate the unrivalled rigidity that will protect your smartphone at all times.
