

DESCRIPTION

A premium portable battery that takes the charging experience to the next level for all your devices wherever you go. Discover a simultaneous charging at maximum power that will allow you to fully charge a smartphone, tablet or laptop in the blink of an eye thanks to the 20 W of power and Power Delivery technology incorporated. Its 20.000 mAh capacity allows you to fully charge a smartphone more than 6 times and it also features 4 output ports and LED battery indicator. It's time to rediscover portable charging!

Charge your smartphone 6 times

Thanks its large 20.000 mAh capacity, this powerbank will provide endless charges for all your devices. Charge a smartphone 6,3 times, a tablet more than 2,7 times or wireless headphones up to 40,6* and forget about leaving your devices out of battery when you're away from home. A one-of-a-kind travel companion!

*Tests conducted with an iPhone 12 mini, an iPad mini 2021 and AirPods 3. Values may vary depending on handset and battery capacity.

Power Delivery ultra fast charging

The 20 W that the powerbank incorporates will fully charge the battery of all your devices within no time. You only need 35 minutes to charge 60% of a smartphone battery!* Plus, thanks to the optimized Power Delivery charging technology, you'll charge your phone at the fastest speed while taking care of the battery's health. Take the best charging experience with you wherever you go!

*Test conducted with an iPhone 13. Figures may vary depending on the device and battery capacity.

Simultaneous charging to take with you everywhere you go

So that charging all your devices at the same time never becomes a problem. Thanks to its 3 USB-A outputs and 1 USB-C output you can connect a charging cable compatible with your device (USB-A to USB-C cable included) to the corresponding port and charge up to 4 devices simultaneously. This external battery fully charges in just 6 hours. With the Ksix Ultra Slim powerbank, time saving and convenience go hand in hand.

One powerbank to charge them all

The Ksix powerbank is universally compatible: whether you are Apple or Android, whether you want to charge your smartphone, your tablet or even your smartwatch or wireless headphones, this powerbank is for you. The delivered power will adapt to the parameters required by the device, allowing you to charge lower voltage devices without damaging their battery.

Lithium polymer battery

The powerbank's battery is made up of lithium polymer, which makes it more durable and safer. In addition, this material allows the battery to have an ultra light weight and small size without sacrificing its high power capacity.

Ultra slim, elegant and ergonomic

We don't leave anything out: the great power and capacity of the Ksix Ultra Slim powerbank are complemented by an incredibly thin and sophisticated design to suit any style and situation: all in a light weight of 324 g and a compact size of 15,6 x 8,3 x 1,7 cm. Its ergonomics and ease of use will make turn it into your best ally, and into that of all your devices.

TECHNICAL SPECIFICATIONS.
