

## DESCRIPTION

The Xiaomi Kingsmith Walkingpad MC21 folding connected treadmill is the fitness machine your home needs. With a minimalist and neat design and a folding system that will make it fit in any corner of your home. It also incorporates the latest in NFC technology.

### Foldable and ergonomic

With Kingsmith's patented folding system, folding the MC21 is so quick and easy that you can do it with a single foot. In addition, this model has an axis angled 80° towards the horizon, which allows for a more intuitive reading from the LED panel and better adapts to the running posture of the human body.

### Two built-in displays

Thanks to the two LED displays, one on the top and one on the bottom, it is very convenient to monitor exercise data when doing sport. The LED display on the top of the motor allows you to select between A&M modes and manage on/off. The LED display on the handrail gives you a direct reading of your workout data.

### Two training modes

This treadmill offers two different ways of doing sport: automatically or manually. The automatic mode reaches up to 6 km/h, while the manual mode will allow you to reach up to 10 km/h. Choose the mode that suits you best and give your sports routines a go!

### Integrated NFC technology

Thanks to its NFC technology, transferring your workout data from the treadmill to your smartphone has never been easier. Bring your device close and in a few seconds you will have all your session data on the screen of your smartphone - the most practical and innovative way to keep track of your workout!

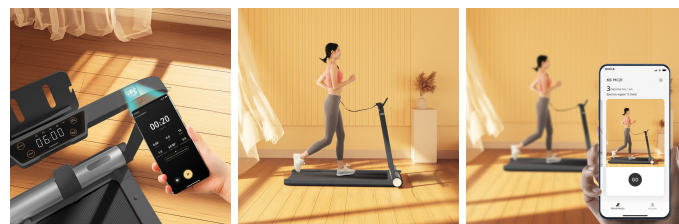

### Multiple layers for better exercise

This treadmill is made up of a multi-layer system consisting of 5 key elements. With anti-slip and wear-resistant treadmill belt, cushioning effect layer, strong and lightweight aluminium frames, high density fibre layer and outer casing. Everything you need for a powerful and quiet workout.

### Connected to its app

With the Walkingpad MC21 you have all your workouts and routines at your fingertips. Download the Kingsmith App and sync it with the treadmill to have all your progress at a glance - you're in control! Also compatible with Zwift and Kinomap.

Recommended use: Allow 10 minutes rest time for every 50 minutes of continuous use.
