Ksix Urban Plus smartwatch, 2,05" Multitouch Display, 5 days Aut., Sport/Health Modes, Voice Assistants, Waterproof, Orange

DESCRIPTION

The Urban Plus smartwatch is a complete and versatile watch with which to make and receive calls and that offers a battery life of up to 5 days. It incorporates new features designed to make everyday life easier, such as compatibility with voice assistants, energy saving mode, screen extension and much more. With 2,05'' screen from which you can monitor your health and your workouts. In addition, it has interchangeable straps, compatible with those of Apple Watch. Everything you were looking for, the Urban Plus has it.

Make and receive calls

With this smartwatch you won't need to hold your smartphone in your hands to make or receive calls thanks to its hands-free calling function. Synchronize your contact list from the MActive Pro app or dial the number you want directly from the watch... And that's it! In addition, from this same app you can configure alerts and notifications from your favorite apps.

Mens sana in corpore sano

Follow an active lifestyle with the help of the Urban Plus. Its multiple sports functions such as its sport modes, its movement reminder or its pedometer will make you feel more vital than ever. In addition, it allows you to monitor your health 24 hours a day thanks to its heart rate meter, its blood oxygen control, its sleep monitor and much more.

A design that will not go unnoticed

From its large 2,05'' multi-touch IPS screen you will be able to manage your smartwatch in the most comfortable way possible. In addition, it is made with top quality materials that together with its IP68 protection and its self-draining function, will keep the watch safe from any presence of water.

Fun in a square

Up to 5 days of autonomy is what this great smartwatch offers. Compatible with voice assistants, this watch offers other possibilities such as split screen, NFC support, music player, remote shutter... In addition, thanks to its MActive Pro app you can download games, customize the wallpaper and much more.

NFC support does not function as a payment method. It simply serves to transfer data directly from the watch in the form of tickets, gym passes, among others. We recommend consulting the compatibility of this technology with each establishment beforehand.

A top-quality strap

The Urban Plus incorporates a strap with buckle and hook that fits the best way to its tubular structure getting that does not come loose even when practicing sports at high speed. An interchangeable strap and compatible with Apple Watch straps that will allow you to change style depending on the day. The most chameleonic smartwatch with which you will set the trend at all times.

Product information

Smartwatch case: 47 mm high x 44 mm wide x 12 mm thick. Material: aluminum alloy

Smartwatch display: 2,05'' IPS multi-touch, dimensions 35 mm high x 43 mm wide. Material: Calcium carbonate glass

Smartwatch strap: 26 cm length (including smartwatch case) x 22 mm wide. Material: silicone. Interchangeable straps available on our website, compatible with Apple Watch 42/44/49mm

Wrist closure range: The size of the Urban Plus straps is standard offering a closure range of 6cm to 8cm wrist diameter. Not recommended for people with very small wrists, as this would make it difficult to calculate health data as the watch is not well attached to the wrist.

In case of swimming in the sea or in a salt water pool, it is recommended to rinse the watch with fresh water after immersion due to the corrosive effect of salt water.
