

DESCRIPTION

External battery with 20.000 mAh capacity, with which you can charge up to 3 devices at the same time with simultaneous charging. Includes USB-C cable and LED battery level indicator.

High capacity

Up to 20.000 mAh capacity to charge your devices. Thanks to this power, you can charge a smartphone up to 5 times.

*Test performed with an iPhone 12. Values may vary depending on the terminal and battery capacity.

Up to 3 devices at the same time

The 20.000 mAh Power Bank has 2 USB-A ports and 1 USB-C port, allowing you to charge up to 3 devices at the same time. The maximum power of 10.5W will be distributed among the 3 devices depending on the port where you place each device.

Incorporates simultaneous charging

This Power Bank allows you to charge several devices simultaneously while charging the Power Bank itself. A way to save time and energy that will allow you to have your devices always with battery.

Remaining energy monitoring

The LED indicator on this battery will show you the remaining battery level at all times so you will never run out of power. This way, you can recharge when needed.

Charge again and again and again...

The lithium polymer battery of this power bank offers a lifespan of up to 500 charge cycles, which means you can charge your phone and other devices for a long time with this super external battery!

TECHNICAL SPECIFICATIONS.

Weight	410 g
Dimensions	68 x 29.5 x 151 mm
Color	Black
Material	Li-polymer
Maximum output power	5V/2.1A
Input parameters	5V/2.1A
Output parameters	USB 1 (Fast charge): 5V/2.1A. USB 2: 5V/1A
