Kingsmith WalkingPad C2 treadmill, LED display, 6 km/h, Foldable, Bluetooth, Silent, Connected, Black

DESCRIPTION

The Kingsmith WalkingPad C2 treadmill is the best choice for those who want to exercise without having to leave home. Its unique folding design will allow you to store it wherever you want. It incorporates a silent motor, so you do not disturb anyone while you are using it. Thanks to its Bluetooth connection you can link it to your smartphone, control the speed and check data about the training you are performing in a quick and easy way through the KS Fit app.

A unique and innovative folding design

The unique 180º folding design of this treadmill allows you to easily store it easily and conveniently. Thanks to its small size of just 82,5 x 52 x 13,6 cm, a weight of 25 kg and its integrated wheels, you can store it under the couch or under the bed. It is very easy to use, as it does not require any assembly. Just unfold it, connect it to the mains, and time to walk

Automatic and manual speed control

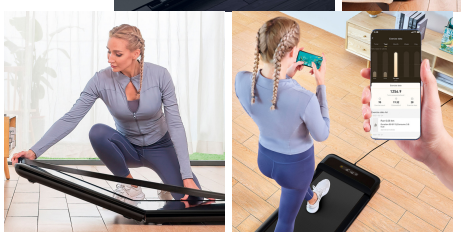
The treadmill speed can be automatically controlled thanks to its built-in sensors. Depending on which part of the treadmill you are walking on, the treadmill will regulate the speed at which you are walking. If you walk on the front part of the treadmill the speed will increase; if you walk on the back part, it will decrease; and if you stop walking the treadmill will turn itself off so that you can safely stop using it. The speed range goes from 0,5 to 6 km/h. You can also control the speed manually via KS Fit app, through the control the control knob, and visualize it through the built-in LED display.

Make the most of its app

Download the KS Fit app available for iOS and Android, and synchronize it with the treadmill via Bluetooth to manually regulate the speed and have a more thorough control over the training you perform with the treadmill. You can check the distance traveled, steps taken, calories burned and much more. You are in control!

Ultra silent

The built-in treadmill motor is ultra silent (65 dB), which will allow you to exercise both day and night without having to worry about disturbing the rest of residents of your house or your neighbors. A good solution for those who want to exercise whenever they wish.



Train smoothly and comfortably

The treadmill is shock absorbing, abrasion resistant and antistatic. All this will allow you to exercise smoothly and comfortably, so that you do not suffer knee or foot pain, thus avoiding any type of injury. A treadmill that supports up to 100 kg of weight and is ideal for practicing sport while doing any other activity from an elevating desk.
