Interchangeable silicone watch strap, Compatible with Ksix Oslo, 46 mm, Green

DESCRIPTION

Change the style of your Ksix Oslo with this 46 mm silicone strap that will follow you in all your adventures. Easily replace the strap of your smartwatch in a few seconds to suit any situation you find yourself in and set the trend wherever you go. A strap designed to practice extreme sports thanks to its great grip.

Specially for Ksix Oslo

This 46 mm wide strap is specially designed for the Ksix Oslo model. So that you can change the look of your smartwatch whenever and wherever you want.

A flexible and resistant strap

This strap is made from high quality durable and flexible silicone that offers a soft and skin-friendly feel. The buckle and strap attachment are made of plastic and offers a full grip.

Easily interchangeable

With this strap you can completely change the look of your smartwatch in just a few seconds. Swap straps with ease thanks to its simple and intuitive replacement system. To remove it you just must hold it and slide the metal piece to unhook it from its hole. Once unhooked, you can remove the strap. To insert it, simply hold it and insert it into the corresponding slot. Once inside, slide one end of the metal piece into the hole on its side. Do the same with the other end. Adapt to any situation in a matter of seconds!

Standard size

The strap has a standard size and offers a wrist closure range from 6 to 8,5 cm in diameter, which renders it not recommendable for people with a very small wrist, as it would not fasten adequately and would make it difficult to compute the health data on your smartwatch.

Comfortable and sporty

The high quality silicone from which this strap is made will allow you to wear your smartwatch so comfortably that you will not even notice you are wearing it. The strap is flexible and has a sporty design that will join you in all your activities.
