

DESCRIPTION

The Wave silicone strap, compatible with Ksix Urban Plus and Apple Watch models with 44, 45 and 49 mm cases, has been designed to join you in any type of adventure, outdoor training or underwater sport. Its tubular design fits perfectly to your wrist offering maximum fixation in any situation. It is very easy to interchange one for the other in a few seconds.

Compatible with Apple Watch Ultra and Ksix Urban Plus

This strap is compatible with all the Apple Watch models with 44, 45 and 49 mm cases and Ksix Urban Plus. It is the perfect strap to customize your watches and change your style.

Tubular design

Its tubular design fits perfectly to your wrist offering maximum support so that it does not loosen even when practicing sports at a high speed. A strap that allows you to practice sports without having to worry about your smartwatch.

A flexible and resistant strap

The Wave strap is made from high quality silicone very resistant and flexible that offers a soft and pleasant feel against the skin. It features a buckle and a steel clasp that will add a stylish touch to your smartwatch.

Easily interchangeable

With this strap you can change completely your smartwatch's look in just a few seconds. Swap straps with ease thanks to its simple, intuitive and Apple-inspired sliding replacement system. To remove the strap, simply hold it, press the safety button on the back of the watch at the end of the corresponding strap, and slide it to the left. To insert it, hold it and then slide it to the right until the strap is fully inserted into the watch's body. Adapt to any situation in a matter of seconds!

Standard size

The Wave strap has a standard size and offers a wrist closure range from 6 to 8 cm in diameter, which renders it not recommendable for people with a very small wrist, as it would not fasten adequately and would make it difficult to compute the health data on your smartwatch.
