

EBOTICS MAKER KIT 2 ROBOTICS AND PROGRAMMING

Product price:

€20.58 tax excluded

Product codes:

Reference: BXMPJ03

EAN13: 8427542097442

UPC: 24167

Product description:

The Maker Kits are perfect to learn robotics and programming. With the Maker Kit 2 is possible to expand the parts included in the Maker Control Kit and combine them to create even more incredible projects. The key is the Build&Code 4in1 circuit board from the Maker Control Kit.

The Maker Kit 2 includes 5 projects: lion fan, zoetrope, color thermometer, multicolored lamp, and automatic paper dispenser.

Product features:

Compatibility: Windows / Mac OS

Box content: DC motor with propeller, temperature sensor, RGB LED, blue LED, potentiometer, and IR line tracking sensor

Connectivity: USB / Bluetooth

Type: Electronics kit

Education levels: Primary / Secondary

Coding language: Code (Arduino IDE)/Blocks (mBlock 3)
