KSIX GaN 20W wall charger, PPS, Power Delivery, Fast charge, Multiport 1 x USB-C + 1 x USB-A, White

DESCRIPTION

Charge your devices at full speed thanks to this KSIX multiport wall charger. It offers a power up to 20 W, which makes it compatible with fast charge. You can charge your devices quickly, efficiently and safely thanks to the three technologies it incorporates: GaN, Power Delivery and Programmable Power Supply. It features 2 ports (1 USB-C and 1 USB-A) and incorporates simultaneous charging so you can charge 2 devices at the same time if necessary. In addition, the charger's housing is composed of polycarbonate plastic, a compact and safe material. Enhance your charging experience with this KSIX multiport wall charger!

Charger with GaN technology

This charger incorporates GaN technology, it is composed of components made of gallium nitride. This material enables the charger to offer a much more efficient and safer charge, since it optimizes the use of energy and generates a much lower heating than conventional chargers. In addition, it allows high-power chargers to have a small size and a light weight.

Includes Programmable Power Supply

This charger incorporates Programmable Power Supply technology, which offers much more efficient and controlled charging than conventional chargers by dynamically adjusting the power output to match the specific needs of the device in real time. This charging technology is compatible with devices such as Samsung Galaxy S20 Series, S21 Series, S22 Series and later; Samsung Galaxy Note 10+; Samsung Note 20 Series and later; Google Pixel 6 Series, 7 Series and later; OnePlus 9 Pro; among others. The charger is also compatible with any type of device that incorporates USB-C or Lightning port.

Fast charge with Power Delivery

With this charger you will enjoy fast charging on both the USB-C port, as well as the USB-A port if used independently. On the one hand, the USB-C port offers a maximum power of 20 W and features Power Delivery, a fast and efficient charging technology optimized for iPhone, Samsung smartphones and other compatible devices. On the other hand, the USB-A port provides a maximum power of 18 W. Charge your devices at a high speed thanks to this multiport wall charger.

Charge 2 devices at once

This multiport charger features simultaneous charging, which means it is specially designed to charge 2 devices at once. You will be able to charge smartphones, laptops, tablets, wireless earphones, powerbanks and many more. A practical and efficient option to keep your devices charged and ready to use.

Safety first

This charger's housing is 100% composed of polycarbonate plastic. This grants it a UL94 V-O flammability protection rating, the safest on the market. All this in a simple and elegant white design. It has a very small size and weight, which will allow you to take it wherever you go comfortably. Great power in a small size.

Technical specifications

- Input parameter: 100-240V
- USB-C output parameters: 5V-3A / 9V-2.22A / 12V-1.67A
- USB-A output parameters: 5V-3A / 9V-2A / 12V-1.5A

TECHNICAL SPECIFICATIONS.

Color	**White**
Input parameters	**100-240V**
Use	**Home/Office**
Type of charge	**GaN ultra fast charge**
Max. Output (W)	**20W**
Quantity of USB-A ports	**1**
Input connector	**UK 3-pin**
Technology	**GaN + PD + PPS**
Quantity of Type C ports	**1**
Shape	**Ergonomic**
Packaging	**Recycled carton**
