

## DESCRIPTION

The optimal pedestal for your Policharger NW electric vehicle charger. Discover the new minimalist and attractive model designed to be installed at any charging point and serve as a support for the Policharger NW charger when a wall is not available. Its zinc-plated finishes with baked-on epoxy paint grant it a very elegant and premium feel. Since it is composed of galvanized steel and has IK10 impact resistance, it is a very strong and durable pedestal. It weighs 12 kg and measures 140 x 30 x 25 cm, which makes it compact in size and easy to integrate.

### At the level of your Policharger NW charger

An ergonomic and minimalist pedestal, as well as elegant, thanks to its zinc-plated finishes with baked-on epoxy paint. It is the perfect complement to your Policharger NW electric vehicle charger. It optimizes your charging experience by bringing in an efficiency and comfort bonus.

### Lightweight, yet resistant

The pedestal for the Policharger NW charger is very resistant, since it is composed of galvanized steel, which makes it the most durable solution to install the charger in the point of charge of your choice. With IK10 impact protection, so that you can place it outdoors without having to worry about anything.

### High degree of integration

It has very adjusted dimensions of only 140 x 30 x 25 cm and a weight of 12 kg. Its compact and small size, together with its minimalist design, allows the pedestal for the Policharger NW to be integrated anywhere and not be obtrusive or cumbersome because of having a large size.

### Easy installation

This pedestal's installation is incredibly simple and intuitive and will allow you to have it ready in the blink of an eye so you can use your Policharger NW charger. Its installation method simply consists of a 4-bolt floor fastening. Furthermore, you can additionally purchase a rain cover to protect your charger from rain outdoors.
