

## DESCRIPTION

The LED screen with 4 digits and 7 segments has 7 LEDs that make the shape of an 8. By controlling when each LED turns on and off, it is possible to represent the different numbers and letters.

This LED display is compatible with the Build&Code 4in1 EBOTICS board and allows to visualize the values obtained by the sensors included in the robotics and programming projects.

### Technical specifications

- Power: 3.3V, 5V
- Operating current: 13~26mA
- Dimensions: 71,00 × 40,90 mm

## TECHNICAL SPECIFICATIONS.

<b>Voltaje</b>	Compatible with the Build&Code 4in1 EBOTICS board
<b>Dimensiones</b>	3.3V, 5V
<b>Compatibilidad</b>	It can represent the different numbers and letters.
<b>Contenido de la caja</b>	71 × 40,90 mm
