

DESCRIPTION

Discover the Amazfit Bip 5, the ultimate smartwatch that combines style, functionality and cutting-edge technology; all in one! Stay connected, take care of your health and reach your sport goals with this smartwatch. All with a high-resolution curved display that offers an exceptional visual experience. Don't wait any longer and take it with you everywhere you go.

A great display

The Amazfit Bip 5 smartwatch features an ultra-large 1,91” high-resolution curved display that offers a stunning visual experience. Enjoy exceptional sharpness and image quality so you never miss a single detail.

Up to 10 days of autonomy

With the Bip 5 you won't have to worry about running out of battery, as it has an autonomy of up to 10 days in normal use and up to 5 days in intensive use. In addition, it charges from 0 to 100% in just 2 hours with its magnetic charger.

Take care of your health 24 hours a day

>

For the Amazfit Bip 5, your well-being is its priority. You will be able to monitor your health 24 hours a day. It tracks your heart rate, blood oxygen saturation, monitors your stress levels and the time and quality of your sleep. In addition, it has multi-sport mode to monitor your physical activity and achieve all the goals you set for yourself.

Stay connected

With the Amazfit Bip 5 smartwatch, you can make and receive calls directly from your wrist thanks to its built-in microphone and speaker. In addition, it incorporates the Alexa voice assistant, so you can have control just with your voice. It is compatible with the Zepp App, which further enhances the functionality of the watch. It features Bluetooth 5.2 BLE to ensure a stable connection and is compatible with Android 7.0 and iOS 14.0 and later versions.

Elegant and submersible

The Bip 5's design is sleek and adapts to any situation and style. The removable 22 mm silicone straps are very comfortable and offer a firm and resistant grip. The wrist-locking diameter of the straps is 15,5 to 21 cm, ensuring a perfect fit. In addition, it has an IP68 protection rating, so it can be submerged under water. In case of swimming in the sea or in a saltwater pool, it is recommended to rinse the watch with fresh water after immersion, due to the corrosive effect of salt water.
