

DESCRIPTION

The smartwatch and strap display, made of resistant PVC, is the perfect tool to cross-sell Ksix Urban 4 and Ksix Urban Plus with their compatible straps at any selling point. The ideal tool to place behind the counter or in a showcase. Very easy to install thanks to its folding mounting system and its included screws and nuts. In addition, it incorporates sales arguments to boost purchases.

Designed for your point of sale

The 34 x 27,5 x 21 cm POS display is specially designed to show the end customer the different customisation options of these models in a closer and more direct way. Its compact and minimalist design is ideal for any space at the point of sale such as counters, showcases or shelves.

Exclusive design for Urban 4 and Urban Plus

The display has been created exclusively for Ksix Urban 4 and Ksix Urban Plus. It incorporates 2 slots to include smartwatches and 6 more slots to incorporate different 42/44/45 mm interchangeable strap options compatible with Ksix models and also Apple Watch.

The POS display does not include the smartwatches and straps shown in the image

A tool to boost sales

This sales tool, designed especially for the Ksix Urban 4 and Ksix Urban Plus smartwatches, clearly communicates the functionalities through visual and written sales arguments. It also focuses on the idea of customisation and strap interchangeability, thus promoting cross-selling.

A premium display

It is quick and easy to install thanks to its folding assembly system. Simply join the parts and reinforce them with the screws and nuts included, and the display is ready in a matter of seconds. In addition, it is made from ultra-resistant PVC, which guarantees greater durability.
