

DESCRIPTION

Charge all your devices quickly, safely and efficiently thanks to the GaN, PPS and Power Delivery technologies and the power of up to 20 W of this USB-C wall charger. With a mini format and a light weight so you can take it with you on a trip or wherever you go in complete comfort.

Features GaN technology

This wall charger is powered by advanced GaN technology, comprising components made from gallium nitride. This material allows the charger to be compact in size and light in weight without any power decrease. It also offers much more efficient charging than conventional chargers and generates less heat in the device. Cutting-edge technology in the palm of your hand.

PPS: Smart dynamic charging

The charger features Programmable Power Supply technology, which offers much more efficient and controlled charging than conventional chargers by dynamically adjusting the power output to match the specific needs of the device in real time. This charging technology is compatible with devices such as Samsung Galaxy S20 Series, S21 Series, S22 Series and later; Samsung Galaxy Note 10+; Samsung Note 20 Series and later; Google Pixel 6 Series, 7 Series and later; OnePlus 9 Pro; among others. The charger is also compatible with any type of device with a USB-C or Lightning port.

Fast charging with Power Delivery

This charger features Power Delivery, a fast and efficient charging technology optimised for iPhone, Samsung and Xiaomi devices, which also offers compatibility with models from brands such as Google, Realme, OnePlus and more. This charging technology offers significantly more power than conventional chargers, allowing you to charge your devices at maximum speed.

USB-C: The universal standard

This wall charger features a USB-C port, the industry's universal standard. This port offers fast charging with up to 20 W of power so you can charge your devices in very little time. In addition, it provides full compatibility with all brands and devices, whether they are smartphones, tablets, earphones, powerbanks, among others.

Compact and safe design

The housing of the charger is made of 100% polycarbonate plastic, a material that gives it a UL94-V0 flammability protection rating, the safest on the market. All this in an elegant white design with a compact size of only 3 x 3 x 6,8 cm and an ultra-light weight of 51 grams. This mini format makes the charger fit perfectly in any pocket, backpack and handbag, making it the perfect travel option.

Technical specifications

- Input parameter: 110-240V
- Output parameters: USB-C 5V-3A / 9V-2,22A / 12V-1,67
- Max. power: 20 W

TECHNICAL SPECIFICATIONS.

Color	White
Input parameters	110-240V
Use	Home/Office
Type of charge	Fast charge
Max. Output (W)	20W
Technology	GaN + PD + PPS
Quantity of Type C ports	1
Shape	Ergonomic
Packaging	Recycled carton
