

## DESCRIPTION

### **The purity of sound and the elegance of aluminium**

You want your earphones to ensure a stable and immersive listening experience, but you also want them to be elegant and have a unique design. Because we get it, we introduce you to the Ksix Go&Play Air Wireless Earphones.

### **Listen to your music with style**

Let yourself be seduced by its elegant design. They are made of aluminium alloy, a lightweight and high quality material, that will allow you to enjoy a purer and sharper sound, without distortions.

### **Immersive sound**

With its ergonomic shape and aluminium exterior, the Go&Play Air earphones offer more isolation from the exterior noise, for an immersive sound experience. Meanwhile, its ear buds (available in 3 different sizes) will adapt them perfectly to your ears.

### **No more cables, no more tangles**

Say goodbye to those annoying cable tangles. Its plane cable avoids them from getting tangled.

Turn on the earphones, connect them with

your smartphone via Bluetooth and put music to every moment of your day using the earphones buttons.

## **Let your hands free**

The Go & Play Air Wireless Earphones incorporate the HFP Free-Hands Profile, so you can make and receive phone calls by touching only one button, without taking your phone out of your pocket.

## **Main features**

- Wireless earphones made of aluminium alloy
- Ergonomic and sharp design, for a purer sound experience
- Ear buds in different sizes for a perfect fit
- Flat cable to enjoy your music without tangles
- Control your music and phone calls using the cable button
