Fitbelt waist pack: water-resistant, adjustable 64-120cm with 3 compartments & reflective details for versatile use

DESCRIPTION

The FitBelt sports waist pack is designed for those seeking practicality, comfort, and versatility during physical activities. Perfect for running, gym workouts, cycling, or hiking, it allows you to carry your smartphone and essential items without sacrificing freedom of movement.

Premium Materials

Made of water-resistant lycra on the outside and breathable mesh on the inside, the FitBelt provides comfort and protection during every workout, keeping your belongings safe even in light rain.

Ergonomic and Adjustable Design

Lightweight and comfortable, it fits snugly to your body thanks to its adjustable elastic strap, suitable for waist sizes ranging from 64cm to 120cm, ensuring excellent fit and stability.

Optimal Capacity

Equipped with 3 compartments:

A main compartment suitable for smartphones of all sizes

Two side pockets, ideal for keys, cash, and small items

Safety and Functional Details

Reflective details enhance visibility during evening runs or in low-light conditions, while the durable zipper ensures a secure and practical closure, protecting the contents during physical activity.

Versatility for Every Occasion

The FitBelt is not just a running waist pack: it's perfect for gym workouts, hiking, or bike rides. Its water resistance and compact design make it an essential accessory for every athlete.
