

DESCRIPTION

The universal MagBelt support compatible with MagSafe is designed to provide convenience and versatility, ensuring your smartphone stays stable and accessible at all times. Perfect for gym equipment like treadmills or spin bikes, but also for metal surfaces such as desks and shelves, it's the ideal accessory for any situation.

Thanks to the powerful N52 magnet, the MagBelt ensures a firm attachment for all MagSafe-compatible smartphones. For devices that don't have this technology, an included metal ring with 3M adhesive guarantees immediate compatibility with all smartphones. Additionally, a second magnet on the back of the holder allows it to be attached directly to metal surfaces, expanding its range of uses.

With a length of 24cm and weighing only 60 g, the MagBelt is ultra-lightweight and easy to carry. The adjustable strap from 12 to 20cm ensures a secure and custom fit. Made of silicone and ABS, it offers durability and comfort even for extended use.

Key features:

Compatible with MagSafe and other devices thanks to the included adhesive metal ring

Powerful magnet for a secure attachment

Additional magnet for use on metal surfaces

Adjustable strap for diameters from 12 to 20cm

Durable and lightweight materials for comfort and longevity

The MagBelt is the perfect accessory to simplify smartphone use during physical activity, work, or relaxation, offering a practical and versatile design.
