KSIX 65W Wall Charger, GaN, PPS, Power Delivery, Sustainable materials, (2 x USB-C + 1 x USB-A), White

DESCRIPTION

A powerful and versatile charger for all your devices—the perfect solution for fast and efficient charging from a single adapter. With two USB-C ports and one USB-A port, it delivers smart and dynamic charging thanks to GaN, Power Delivery 3.0, and PPS technologies, making it ideal for laptops, smartphones, tablets, and more.

65W Ultra-Fast Charging for Laptops

With 65W of power, this charger can power everything from smartphones and tablets to laptops. Plus, its multiple ports offer a variety of options for simultaneous charging.

GaN: More power in a compact design

Thanks to gallium nitride (GaN) technology, this charger is more efficient, smaller, and generates less heat than conventional adapters. Perfect for carrying in your pocket or backpack without taking up space.

Smart charging with Power Delivery and PPS

Power Delivery 3.0 ensures ultra-fast and optimized charging for devices of any brand. Additionally, the PPS (Programmable Power Supply) system dynamically adjusts voltage in real-time to maximize efficiency and extend battery life.

Simultaneous charging for greater convenience

Charge three devices at the same time with optimal power distribution, so you can have everything ready without waiting to charge one by one.

Made from sustainable materials

This charger is not only powerful but also environmentally friendly. It is made from 80% recycled plastic, reducing its environmental impact. Additionally, its compact design makes it ideal for carrying anywhere without taking up much space in your bag or backpack.

TECHNICAL SPECIFICATIONS.

Color	**White**
Type of charge	**Ultra fast charge**
Max. Output (W)	**65W**
Technology	**GaN + PD + PPS**
Shape	**Ergonomic**
Packaging	**Recycled carton**
