Wallbox Pulsar MAX Charging + three-phase energy meter + holder Kit electric Car, 22kW, Three-Phase, Type 2, 5m cable, Black

DESCRIPTION

The Pulsar Max kit for electric cars offers a compact size and advanced performance, along with an optimized, reliable design. It includes a 5 m power cable, three-phase charging with 22 kW output, and a three-phase energy meter. Connect to the myWallbox app via Wi-Fi or Bluetooth to unlock all smart charging features.

Compatible with your electric car

Pulsar Max is compatible with electric vehicles that use a Type 2 charging plug.

Fast and powerful charging

Suitable for any electric or hybrid vehicle, with charging capacity up to 22 kW.

Durability

With IP55 and IK10 protection ratings, Pulsar Max is water- and dust-resistant, ensuring safe installation indoors or outdoors. It also features a premium matte scratch-resistant finish.

Compact

Lightweight and small-sized charger.

Easy installation

Wall-mounted and easy to install, with integrated PEN protection. You won't need to search for compatible accessories.

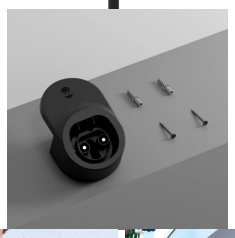

Increased safety

The Pulsar Max kit is even safer. It's crucial when charging at power levels up to 22 kW.

Built-in intelligence

No internet connection in your garage or car park? No problem. Pulsar Max features Bluetooth, so you can charge the car even without WiFi.

Save money and energy

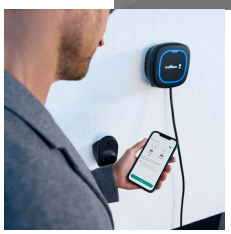

Avoid peak rates and charge smarter by scheduling sessions through the myWallbox app.

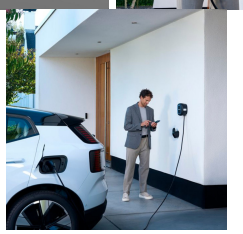

Solar charging compatible

The Pulsar Max kit is ready for solar-powered charging.

Optimise your Wallbox experience

You can monitor real-time consumption and adjust charging power based on your rate plan with the smart Power Boost feature. This way you will avoid overloads or extra costs. The kit includes a power meter for more accurate charging based on the energy expended in each session.

TECHNICAL INFORMATION

- Connector: Type 2
- Maximum Current: 32 A, up to 13 mm^2 cable
- DC Leakage Detector Included: Yes

- User Interface: myWallbox Portal, Wallbox App
- Surge Category: CAT III
- Storage Temperature: -40ºC to 70ºC
- RCCB: Requires external Type A RCCB
- Nominal Frequency: 50 Hz / 60 Hz
- Protection Rating: IP55 / IK10
- Operating Temperature: -25ºC to 50ºC
- Input Voltage: 110 / 230 V AC ± 10% (3P)
- Included Features: Power Sharing Smart
- Dimensions: 198 x 201 x 99 mm
- Maximum Power: 22 kW
- Charging Mode: Mode 3
- Charger Status Info: Halo RGB LED, Wallbox App, myWallbox Portal
- Cable Length: 5 m
- Color: Black
