

DESCRIPTION

The Pulsar Max kit for electric cars offers a compact size and advanced performance, along with an optimized, reliable design. It has a 5 m power cable, single-phase charging with 7.4 kW power and a clamp meter. Connect to the myWallbox app via Wi-Fi or Bluetooth to unlock all the smart charging features.

Compatible with your electric car

Pulsar Max is compatible with electric vehicles with a type 2 charging plug.

Fast and powerful charging

For any electric or hybrid vehicle, charging capacity up to 7.4 kW.

Durability

Pulsar Max, with an IP55 and IK10 rating, is water and dust resistant for safe indoor and outdoor installation. It also has a premium scratch-resistant matte finish.

Compact

Lightweight and small charger.

Safe and easy to install

With integrated PEN protection, the Pulsar Max kit is even safer. Easy to install on the wall, you won't have to worry about compatible accessories.

Save money and energy

Avoid high rates and charge smarter with schedules from the myWallbox app.

Built-in intelligence

No internet connection in your garage or car park? No problem. Pulsar Max features Bluetooth, so you can charge the car even without WiFi.

Save money and energy

Avoid peak rates and charge smarter by scheduling sessions through the myWallbox app.

Solar charging compatible

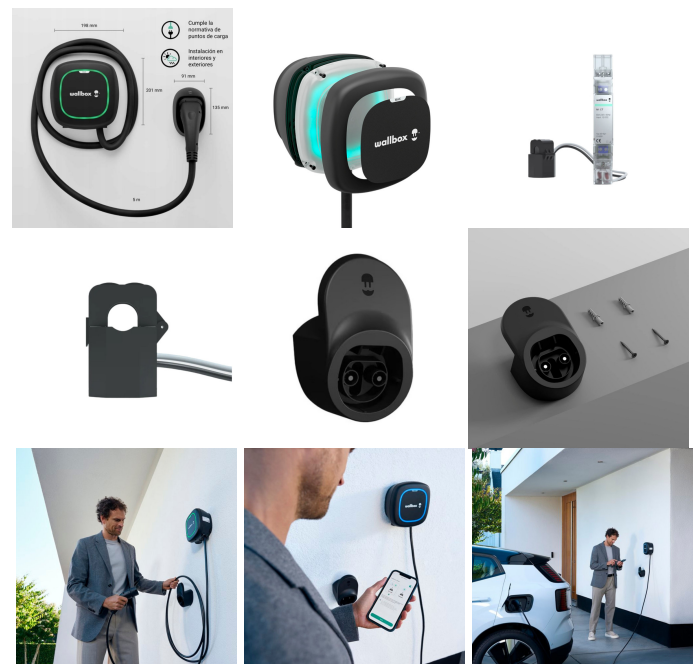

The Pulsar Max kit is ready for solar-powered charging.

Optimise your Wallbox experience

You can monitor real-time consumption and adjust charging power based on your rate plan with the smart Power Boost feature. This way you will avoid overloads or extra costs. The kit includes a power meter for more accurate charging based on the energy expended in each session.

TECHNICAL INFORMATION

- Connector: Type 2
- Maximum current: 32 A, up to 13 mm² cable
- DC fault detection included: Yes
- User interface: myWallbox Portal, Wallbox App
- Overvoltage category: CAT III

- Storage temperature: From -40°C to 70°C
- RCCB: Requires external Type A RCCB
- Nominal frequency: 50 Hz / 60 Hz
- Protection rating: IP55 / IK10
- Operating temperature: -25°C to 50°C
- Input voltage: 110 / 230 V AC ± 10% (1P)
- Features included: Power Sharing Smart
- Dimensions: 198 x 201 x 99 mm
- Maximum power: 7.4 kW
- Charging mode: Mode 3
- Charger status information: RGB LED halo, Wallbox App, myWallbox Portal
- Cable length: 5 m
- Colour: Black
