

DESCRIPTION

Power, speed and full compatibility in the palm of your hand. The KSIX charger combines USB-C Power Delivery 3.0 (30W) and USB-A Quick Charge 3.0 (18W) to charge everything from iPhone® and Samsung® smartphones to tablets, wireless headphones, handheld consoles and eBooks at record speed. It includes a 60W, 1-metre USB-C to USB-C cable for ultra-fast and safe charging across all your compatible devices. GaN technology delivers more performance in a smaller size. Perfect for home, office or when you're on the go.

Universal compatibility with USB-A and USB-C ports

One charger to keep all your devices powered up. The 30W USB-C port is ideal for the latest smartphones, tablets, handheld consoles and more. The 18W USB-A port lets you quickly and safely power other devices. From your iPhone® to your Samsung®, plus headphones and wireless speakers, you'll have total compatibility with just one charger. Fewer accessories, more power when you need it!

A cable that does much more

More than just a cable, it's your hassle-free solution for charging and transferring. Charge your smartphone or tablet via its 60W USB-C to USB-C connection, offering wide compatibility. You can also transfer files, photos and videos from one device to another in seconds with its 480 Mbps Data transfer speed.

With a 1-metre length and minimalist white finish, it's perfect for home, work or taking in your bag. An essential you can always rely on!

Ultra-fast charging with Power Delivery 3.0

Make the most of fast charging with the 30W USB-C port and Power Delivery 3.0 technology. This extra power lets you charge your smartphone up to 50% in just 25 minutes and is also perfect for power-hungry devices like tablets. Power Delivery intelligently regulates power to protect your battery and ensure optimal performance. Faster charging, safer charging!

Instant power with Quick Charge 3.0

The 18W USB-A port with Quick Charge 3.0 speeds up charging of compatible devices, saving you time. Quickly charge your phone or tablet before heading out. This technology optimises power delivery to improve efficiency and protect the battery against overloads. Also ideal for power banks, consoles, e-readers and much more.

GaN: power in a smaller package

Gallium Nitride (GaN) technology revolutionises the way you charge: greater efficiency and less heat in a smaller size. Its advanced materials allow it to deliver more power than a traditional charger while keeping temperatures under control even during long charging sessions. Carry it with you everywhere and enjoy fast, safe charging!

Compact and durable design

Small in size, big on performance. Weighing just 47.4 g and measuring 45.5 × 28.2 × 57 mm, this charger fits effortlessly into any pocket or bag. Its minimalist white design complements any setting and is made from PC + ABS for lightweight

durability. A sleek charger built to last.
